Certification

Certificate of Compliance

Technical Construction File no. [REDACTED]

Certificate's Holder: [REDACTED]

Certification ECM Mark: [REDACTED]

Product: Disposable face masks

Trademark: [REDACTED]

Model(s): KM95-001/002/003/004

Verification to: Standard: EN 149:2001+A1:2009 related to CE Directive(s): R 2016/425 (Personal Protective Equipment)

Remark: The product(s) has been verified on a voluntary basis. The product(s) satisfies the requirements of the Certification Mark of ECM, in reference to the above listed standards. The above Compliance Mark can be affixed on the product(s) accordingly to the ECM registration sheet in release and its use. The registration can be found on www.enricemcm.it. This Certificate of Compliance can be checked for validity on the website www.enricemcm.it.

Additional information, clarification about the CE Marking: The CE Marking process is in place, whereas the Manufacturer is Responsible to start the CE Marking Certification Procedure through an approved notified body and the performance of the necessary activities, as required by the Directive and supported by the notified body, before affixing the CE Mark on the product(s).

CERTIFICATE OF FDA REGISTRATION

This certifies that: [REDACTED]

has completed the FDA Establishment Registration and Device Listing with the US Food & Drug Administration, through UCL-REG SERVICE, INC.

Listing No. D378172 Product Code: LRU Device Name: ACCESSORY SURGICAL APPAREL

D378176 MSH Respirator, surgical

UCL-REG SERVICE, INC. will confirm that such registration remains effective upon request and presentation of the certificate until the end of the calendar year stated above, unless said registration is terminated after issuance of the certificate. UCL-REG SERVICE, INC. makes no other representations or warranties, nor does this certificate make any representations or warranties to any person or entity other than the named certificate holder, for whose sole benefit it is issued. This certificate does not denote endorsement or approval of the certificate holder's device or establishment by the U.S. Food and Drug Administration. UCL-REG SERVICE, INC. assumes no liability to any person or entity in connection with the foregoing.

Pursuant to 21 CFR 801.10, "Registration of a device establishment or assignment of a registration number does not in any way denote approval of the establishment or its products. Any representation that creates an impression of official approval because of registration or possession of a registration number is misleading and constitutes misbranding."

The U.S. Food and Drug Administration does not issue a certificate of registration; nor does the U.S. Food and Drug Administration recognize a certificate of registration. UCL-REG SERVICE, INC. is not affiliated with the U.S. Food and Drug Administration.

Specification

Annie KN95 Mask #3804

5-LAYER FILTRATION

ADVANCED PROTECTION

2 LAYERS OF MELTBLOWN FILTER IS THE KEY

① Non-Woven Cloth

② KN95 Grade Meltblown Filter for Further Isolation of Bacteria & Dust of PM 2.5 Particles

③ KN95 Grade Nanometer Electrostatic Meltblown Filter Layer

④ PP Cotton

⑤ Skin-Friendly, Hypoallergenic Material

COMPETITOR'S KN95 MASK

4 Layers of Protection

Single Meltblown Filter Used

① Non-Woven Fabric

② One Layer of Meltblown

③ PP Cotton

④ PP Polypropylene Non-Woven Fabric

Key Differences:

- **Annie**® #3804 has one additional KN95 grade meltblown filter for further isolation of bacteria & dust
- **Annie**® #3804 thickness of the elastic band (for comfort) compared to competitors
- **Annie**® #3804 is human fit tested

Meltblown is the key aspect of the mask

Your safety is our priority

Surgical vs KN95 Masks

	<i>Annie</i> ® Product #3807 Surgical Mask	<i>Annie</i> ® Product #3809 KN95 Mask
		
Face seal fit	Loose-Fitting	Tight-Fitting
Human fit testing requirements	No	Yes
Filtration	Does not provide the wearer with a reliable level of protection from inhaling smaller airborne particles and is not considered respiratory protection.	Filters out at least 94.9% of airborne particles including large and small particles
How it works	Leakage occurs around the edge of the mask when user inhales. Leakage can be reduced when using adjustable metal nose piece on <i>Annie</i> ® #3807 mask.	When properly fitted, minimal leakage occurs around edges of the respirator when user inhales
Conclusion	A surgical mask is not designed for use as a respirator and does not provide as much respiratory protection as a KN95 mask. However, <i>Annie</i> ® surgical mask can block 95% of viruses when fitted properly.	A KN95 mask will provide better protection against droplets, splashes or spray of bodily or other hazardous fluids, compared to surgical masks.
